Must we always contend with lobbyists who have nothing better else to do but to undermine the future. The driving force of our economy is innovation. As a businessman, I see XM radio as a smart and creative service. The NAB needs to realize that its time to improve there out of date offerings. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
